

How to Create an Instagram Account

To create an Instagram account from the app:

1. Download the Instagram app from the App Store (iPhone) or Google Play Store (Android).
2. Once the app is installed, tap  to open it.
3. Tap **Sign Up With Email or Phone Number** (Android) or **Create New Account** (iPhone), then enter your email address or phone number (which will require a confirmation code) and tap **Next**. You can also tap **Log in with Facebook** to sign up with your Facebook account.
4. If you register with your email or phone number, create a username and password, fill out your profile info and then tap **Done**. If you register with Facebook, you'll be prompted to log into your Facebook account if you're currently logged out.

To create an Instagram account from a computer:

1. Go to [instagram.com](https://www.instagram.com)
2. Enter your email address, create a username and password or click **Log in with Facebook** to sign up with your Facebook account.
3. If you register with an email, click **Sign up**. If you register with Facebook, you'll be prompted to log into your Facebook account if you're currently logged out.

If you sign up with email, make sure you enter your email address correctly and choose an email address that only you can access. If you log out and forget your password, you'll need to be able to access your email to get back into your Instagram account.

Post Images with Hashtags

5 Ways to Post on Instagram - wikiHow

This wikiHow teaches you how to upload a photo or video to your *Instagram* page, as well as how to *post* a comment on someone else's *post*.

How do I use hashtags on Instagram?

You can add hashtags in the caption or comments of your post. If you add hashtags to a post that's set to public, the post will be visible on the corresponding hashtag page.

To tag a photo or video with a hashtag:

1. Take or upload a photo or video
2. Choose to add a filter, then type # followed by text or emoji in the **Caption** field (example: #*flower*)
3. If you want to add a hashtag to a post you've already uploaded, edit the caption or include your hashtag in a comment on your photo

After you tag your post with a hashtag, you'll be able to tap the hashtag to see a page that shows all photos and videos people have uploaded with that hashtag.

Things to keep in mind:

- When people with private profiles tag posts, they won't appear publicly on hashtag pages.
- Numbers are allowed in hashtags. However, spaces and special characters, like \$ or %, won't work.
- You can only tag your own posts. You can't tag other people's photos/videos.
- You can use up to 30 tags on a post. If you include more than 30 tags on a single photo/video, your comment won't post.

Ever wonder what it's like to be a Photographer?

Enroll in Photo 5

Now!

- Learn about digital cameras and what it takes to make a great shot!
- You'll learn camera techniques the pros use creating photos you didn't know You could create.

PHOTO & PHOTOSHOP

Arts, Media & Entertainment

INTRODUCTION TO GRAPHIC DESIGN

Students develop a foundation in using a variety of digital arts related software. Some further exploration of media will take place near the end of the course. Students will create projects that explore: advertisements, commercials, print layouts, business cards, t-shirts, and web design using traditional and digital means. Students will participate in several individual, and group learning activities that include art history, criticism, and aesthetic perception. Students will develop a portfolio of their work as a part of their final grade.

ENTREPRENEURSHIP

Students develop a foundation in using a variety of digital arts related software. Some further exploration of media will take place near the end of the course. Students will create projects that explore: advertisements, commercials, print layouts, business cards, t-shirts, and web design using traditional and digital means. Students will participate in several individual, and group learning activities that include art history, criticism, and aesthetic perception. Students will develop a portfolio of their work as a part of their final grade.

SPORTS & ENTERTAINMENT MARKETING

Sports and Entertainment Marketing is a dynamic course using both creative and advertising systems processes and their practical applications. This is an introductory level sports and entertainment marketing class that is recommended for all students interested in sports and entertainment at Selma High School. Students will define marketing, explain the marketing concept, explain market research, and make marketing connections that will help them understand the economic impact of sports and entertainment. Students will learn how to use various digital tools for hands-on projects and interactive learning.
